

PDPM Audit Services

Let our experts assist you with accurate payment and compliance

- Periodic Medicare audits and training can identify opportunities to improve revenue, decrease costs, and reduce compliance risk for denials.
- Understanding ICD-10-CM coding will ensure the proper default clinical category under PDPM.
- Accurate MDS coding for PDPM items will ensure all components are properly achieved, including comorbidities for SLP and NTA.

A proficient understanding of ICD-10-CM is critical to maximizing reimbursement under PDPM. Missing or incorrect ICD-10-CM Codes can negatively impact your revenue under PDPM. It is essential for facility staff assigning ICD-10-CM codes to have the proper knowledge to assign diagnoses accurately.

We recommend auditing 10% of the facility population, incorporating specific engagement risk assessment concerns (acute fractures, CVAs, infections, and code cases your staff is the least confident coding). Audit Services are provided at \$75 per hour by **Tracey Beattie, RHIA, CCS-P, and RAC-CT**. Tracey is an **AHIMA Approved ICD-10-CM Trainer** with over 30 years of ICD-10-CM code experience in post-acute care.

Our PDPM Audit will include the following:

- A review of Physician documentation to ensure the correct primary ICD-10-CM code was assigned to I0200B.
- A review of Physician documentation to ensure all comorbidities impacting Case Mix Group and PDPM payment are coded.
- A review of Section I8000 of the MDS to ensure maximization for reimbursement.
- A review of Section J of the MDS to ensure surgical procedures related to I0200B are captured.
- A review of the claim form to ensure ICD-10-CM codes are sequenced for Medicare reimbursement in compliance with The Official Guidelines for Coding and Reporting.

Our PDPM Audit Findings will include the following:

- Identifying opportunities to improve revenue, decrease cost, and reduce compliance risk for denials.
- Providing a Facility Action Plan with resources related to findings. We offer [Facility Bundle Pricing](#) for live ICD-10-CM code courses. One-price unlimited staff attendance and, as a bonus, our [ICD10 Questions](#) services are included with each Bundle package. In addition, attendees earn AHIMA CEUs for courses.
